THE OLD DOMINION COFFEE POT.

THIS new Correct Por, for which a patent has been I issued, possesses this advantageover all others you may boil coffee in it for any length of time, with out a particle of the strength or aroma escaping. One fourth less coffee is required, and the full flavor of the erry retained. A large number of testimonials have een received from those who have used it. We have space for only one: The Old Domisios Coffee Por.—We have had in use now, for over two months, one of these much talkedof coffee pots, and we find that it does, in all respects what is claimed for it. You may boil coffee in the Old Dominion for any length of time you choose, and yet none of the delicate aroma or strength. This desirable end is attained by a simple, but ingenious contrivance in the shape of a condenser, with doc syphons, by means of which the aroma bearing vapor, which usually goes all over the house or up the chimney, is condensed and thrown back into the coffee-hoder, and you have its delicious flavor in the cup you bring to your lips. In all our experience of conce-drinking, we never found anything equal to what we now have daily at our morning meal. It is the perfection of coffee.—Philadelphia Evening Jour-Il PSizes 1, 1%, 2, 3, 4, 6, 10, and 16 quarts. Lar-
